ATLANTA, GA. THURSDAY MORNING, JULY 22, 1897—TEN PAGES.

PRICE FIVE CENTS

MOB OF MINERS ON THE MARCH

Armed Men Are Threatening Death
To the Workers.

BLOODSHED SEEMS IMMINENT

The Strikers Will March Upon Cannons-
burg Today.

SHERIFF SWEARS IN 300 DEPUTIES

Invasive Army of Determined Strikers
Has Caused a Cessation of Opera-
tions and There Was Much
Excitement About Mines
Last Night.

Pittsburgh, Pa., July 21.—Trouble, and much of it, seems to be in store at the Allison mine, three miles west of Cannonsburg. The men want to go to work, but are afraid. They fear another invasion of the strikers, and do not want to be targets for a mob that is liable at any moment to lose control of itself. Tonight everything was quiet about the mines, and the citizens of Cannonsburg were awaiting the arrival of the invaders.

It was the intention of the strikers to begin their march to Cannonsburg tonight, but a telegram from Bridgeville announces that owing to the heavy rain of this evening it was decided to postpone the stamp until tomorrow.

The men are fully determined to carry out their threat of making the march. They expect to start with 300 men and be reinforced by about the same number from Bridgeville and Tom's Run. The men will start with seven days' rations and expect to be in shape to march the offending mine for ten days.

Orders were issued to hold all coal at junction points as the railroad wanted to keep a ten-days' supply always on hand. Sensational publications have frightened the roads.

MOB TO ATTACK BIBB JAIL?

City Stirred Up Over Rumors That
Williams Is To Be Lynched.

POLICE AND MILITARY ARE OUT

Mayor, Sheriff and Chief of Police De-
termined To Protect the Negro
at All Hazards.

Macon, Ga., July 22—3 a. m. (Special)—

At 2 o'clock this morning the sheriff of Bibb county, the mayor and Chief of Police Boisefeuille were awakened by runners and notified that an attempt would probably be made just at daylight to lynch Oscar Williams, the negro who assaulted the little girl in Clayton county.

At this hour the police are forming in the station house and will be prepared to march at a moment's notice to protect the man. The militia has been notified and the members of the companies in Macon are hurrying to their respective armories, and will be in readiness to move if it is deemed necessary in order to save the life of the prisoner.

It was rumored about 1 o'clock that there had been two or three meetings in the outskirts of the city and that the advisability of lynching the negro had been taken under consideration.

It is certain that there will not be a lynching without the most desperate bloodshed, for the sheriff, mayor and chief of police are determined to protect the negro, regardless of the heinousness of his crime and the sentiment that has been progressing against him.

Later—3:30 a. m. All efforts to locate the mob have failed, but the town is thoroughly excited.

HOLD COAL AT JUNCTION POINTS

Baltimore and Ohio Lays Embargo on
West Virginia's Output.

Fairmont, July 21.—One of the most important developments of the past twenty-four hours is the embargo laid by the Baltimore and Ohio railroad on all West Virginia coal.

Orders were issued to hold all coal at junction points as the railroad wanted to keep a ten-days' supply always on hand.

Sensational publications have frightened the roads.

GOLD MEN GLOWING WITH HOPE

In the Meantime Committee Members
Do Not Attack.

New York, July 21.—The executive committee of the national democratic party, the gold wing of the democratic party, met today at 6 Williams street. There was not a full attendance. There were on hands W. D. Bynum, late of Indianapolis, and now of Brooklyn; T. C. Moore, the national committee and executive chairman of the executive committee; G. B. Holman, Rockland; M. W. D. Haldeman, Louisville; John C. Bullitt, Philadelphia; George St. Paul; W. W. Screws, Montgomery; W. H. Smith, Boston; F. C. L. Linn of Columbus, O., proxy for L. C. Kranz, Kansas City; Charles C. Canda, New York, proxy for J. F. French, Indianapolis.

There was much disappointment over the absence of the three members of the committee, who had been invited. Those who had expected to be present from Iowa, Kentucky and Ohio, to talk over the prospects of the fall campaign, did not appear.

The executive committee of the state committee of gold democrats, said that the outlook was very encouraging.

Other members of the rank and file who were Bryants last fall had come to a serious contemplation of their errand and would be found with the name of Bryants this fall.

At the close of the meeting Chairman Bryant gave out a statement. He said that the gold men had decided to assist the states of Ohio, Kentucky and Iowa this fall in their campaigns.

SPILL BLOOD AND BATTER FACES

Two Members of Carolina Railroad
Commission Have a Fight.

Columbia, S. C., July 21.—(Special)—Bad blood existing between W. D. Evans, chairman, and W. H. Bennett, member of the state railroad commission, culminated today in which several blanket-blanks were exchanged.

Evans hurled a glass paper weight at Thomas, who dodged and bloodied the other's face with his fists.

They were separated by Commissioners Wilber and Clerk Duncan.

Whether the matter will be carried further is conjecture.

WELLINGTON LOST HIS FIGHT

Warren Is Confirmed as Consul Des-
pite Senator's Opposition.

Fairmont, W. Va., July 21.—Eugene V. Pease addressed 40 miners at Watson this morning, 30 of them marching from the mine entrance. It took time to denounce the operators to the miners.

In his speech he took time to denounce the reports sent to the miners by special correspondents saying he was disengaged. Debs' speech was a socialist one and his utopia was described to the men.

The suspension is complete with the exception of the miners' mines, and though considerable destination and starting is reported among the strikers and their families, the determination to fight it out is apparently as strong as on the first day of the strike.

Debs Said To Be Impregnable.

It was the general opinion that the mines of this company are impregnable to attack because of their strength and position. The meeting expected the board of arbitration did not take place tonight, the strikers members not returning the call.

As soon as they arrive arrangements will be made for a general meeting of the operators.

The situation among the strikers in this district is practically unchanged.

The suspension is complete with the exception of the miners' mines, and though considerable destination and starting is reported among the strikers and their families, the determination to fight it out is apparently as strong as on the first day of the strike.

DEBS SPEAKS TO THE MINERS

Labor Orator Denounces the Mayor of
Pocahontas, Va.

Fairmont, W. Va., July 21.—Eugene V. Pease addressed 40 miners at Watson this morning, 30 of them marching from the mine entrance. It took time to denounce the operators to the miners.

In his speech he took time to denounce the reports sent to the miners by special correspondents saying he was disengaged. Debs' speech was a socialist one and his utopia was described to the men.

He does not leave here for Columbus, as many papers state. Butch will come to him. Debs, when seen, denounced the refusal of the mayor of Pocahontas to let Debs speak as follows:

"If it is true, we are no better in the United States than in Russia. Free speech is denied in both countries. So it is in Russia. It shows the degeneracy of the government. The end is near. It is curious that like other schemes of the revolutionaries, it fails.

DECIDES TO MAGNANIMOUS

owers To Coerce Him In
Agreement.

ISSUED AN IRATE
the Territory He Wants
in Thessaly.

IS CONSTANT PROGRAM

russia and Germany Re
main Silent He
gaged His Tactics.

July 21.—The sultan has been sanctioning the settlement in accordance with the powers. The original Turkish government, now, was for all the north, Thessaly down to the River Nestos, at a point approximately twelve miles from the line of the Peneus, the direction of Larissa, aubria rises in Mount Dikaios in peak of the Kassias, and the whole of Thessaly east of the Gulf of Salonica, a concession would have meant increase in the Ottoman Empire proposal the powers have to consider for a moment. In reply they informed the sultan that all Turkey could be rectified of the existing European military attaché drawn half across the Danube which includes one or two inhabited by Greeks, and the Turkish government that of this line, the Greek would be transferred of the Greek government as a concession to the powers to Greece and the line. On July 5th, in spite of the ambassadors' proposal, a special council of ministers drafted a message to the porto could not be proposed by the powers line north of the Peneus, and the Turkish government that of this line, the Greek would be transferred of the Greek government as a concession to the powers to Greece and the line. On July 5th, in spite of the ambassadors' proposal, a special council of ministers drafted a message to the porto could not be proposed by the powers line north of the Peneus, and the Turkish government that of this line, the Greek would be transferred of the Greek government as a concession to the powers to Greece and the line. The tariff will be closed up before the end of the week.

M'KINLEY PUTS OFF HIS MONEY MESSAGE

Dingley Says It May Not Come Until
Tomorrow.

TRYING TO SHIFT THE BLAME

Bill Will Not Be Discussed in House,
but Shoved Through.

THERE IS NO CHANCE TO DEFEAT TARIFF

If Senators Would Imitate Southerners, Something Might Be Accomplished.

Washington, July 21.—(Special)—Somebody else saw McKinley today and he changed his mind again about that money commission message. Yesterday he told Sherman, of New York, that it would come today.

It didn't come and now there is more uncertainty.

Tonight Mr. Dingley told Congressmen Lewis, of Georgia, that the message may come tomorrow and it may not until Friday or Saturday. It has now been determined by the republican leaders that the house shall have no time whatever to discuss the commission bill or resolution, but that it shall be jammed through at once and sent to the senate.

It is a pure piece of bluff. The republicans know that they cannot get action on it there, but they want to say to the country: "We tried, but those silver men wouldn't let us."

Just what the senate will do with it cannot be said, but they will probably send it to a committee to sleep until December.

As to the tariff, there is no chance of defeating the conference report, and that means no chance to secure any concessions in the shape of free cotton bagging and free cotton ties, or anything else. The combination cannot be perfected, if all those who voted for these propositions would do so in Georgia, Alabama and South Carolina senators, who would easily dispose to stay here until December before they would accept the report, they could win. But other democratic senators are not as deeply interested as are the southerners, and even then, they lack the votes. The tariff will be closed up before the end of the week.

Emmett Womack Hangs On.

A few days ago I wired the Constitution that Colonel Womack had resigned his place in the interior department.

That was a mild way of stating that the new administration had dispensed with the services of the gentleman from Georgia.

The resignation was asked for, the ground for the request being some charges of neglect of duty.

Investigation showed the charges to have been trumped up and Congressman Livingston at once took hold of the case of his Newton county constituent and supporter. Today Colonel Livingston went to Secretary Bliss with the facts and insisted upon Womack's reinstatement. The secretary was at first obdurate, but Colonel Livingston persisted, and as a result Womack was reinstated. After resigning a chief clerk in March, he was in the law department, holding a good place. He now gets an equally good place in the pension department.

Will Be District Attorney Barnard.

Claude McInnis Barnard is to be district attorney for the eastern district of North Carolina. Claude is a co-worker with Kit Gidger, though not in K.'s nomenclature class. He has the backing of Congressmen Skinner and Linney, and this appointment has all the time been conceded as belonging to Skinner and Linney.

Senator Pritchard received today the assurance that the appointment would be made.

Postoffice Appointments.

Among the postoffice appointments made today are these:

Albert J. Gwinnett, county, A. L. Sammons, Morgan, Fannin county, Bonn Crawford, Ga.; Carolina-Packsdale, Clarendon county, John D. Drayton, Columbia, S. C.; North Carolina-Mount Pleasant, Cabarrus county, W. R. Kindley; Piedmont, Yancey county, B. T. Taylor; Pocatalic, Northampton county, B. W. Lester; Robt. H. Hall, Forsyth county, A. F. Stivers; Sandy, Marion county, J. A. Farmer; Saratoga, Lincoln county, J. L. Bowles; Randolph county, L. F. Trojano, Alabama-Moore, Escambia county, Wilmer, Ga.; Marion, Ga.; Perry, Ga.; W. C. Jenkins; Carmichael, Madison county, William Jacks; Duke, Calhoun county, W. M. McRae; Glen Allen, Fayette county, H. S. McMechen; Roselle, Clay county, H. F. Goza.

R. H. Watkins is to be appointed as postmaster at the small town of Jefferson county, Ga.

He May Be More Delay.

It appears to accept the fix by the military attaché powers with reservations, which means that there will be further

season sets in for the trial.

An OLD QUARREL IS RENEWED

Farmer Gann and His Wife Severely
Injured Near Chattanooga.

Chattanooga, Tenn., July 21.—(Special)—William Gann and Andrew White, countrymen and neighbors, this morning met in the road near Gann's house and renewed a former quarrel.

Gann was driving a wagon in which were seated his wife, little daughter and a neighbor's wife.

White came so enraged that he caught up a huge stone and threw it at Gann, striking him in the head and causing a slight cut. Gann, however, took flight and ran away, throwing Gann's wife and child to the ground, fatally wounding the woman and slightly wounding the other woman, who was in the wagon. The woman was not injured.

Gann and his wife were taken to their home and neighbors were called to attend them. The physicians say that Gann will die, and that there is small hope for his wife. The child will recover.

White is still at large.

THE BATTLE OF ATLANTA.

The Forty-Second Regiment To Celebrate the Anniversary at Norcross.

The 40th anniversary of the battle of Atlanta will be appropriately celebrated in the city by a reunion of the Forty-second Georgia regiment. The day will consist of appropriate exercises and the occasion will be highly enjoyable.

The Atlanta veterans will go down in the morning on a special train, 7:30 a. m.

John C. Calhoun, the historian and Col. W. P. Thomas, commander, among others, will attend from this city will be Col. W. W. Anderson, Dr. F. Madix, Dr. P. Walker, Dr. W. M. Durham, Dr. M. Armistead and others.

The officials extend a special invitation to all friends and relatives of the veterans to attend the reunion.

CAPT. LOWRY'S NEW YORK TRIP

Was an Honored Guest of the Bankers' Association.

"Prosperity is coming" is the verdict of the New York Bankers' Association, as to the future of the commercial and financial world. The New York Bankers' Association, who has just returned from a meeting of that organization. He returned yesterday morning and speaks in the most enthusiastic way of the great opportunities before the bankers all over the entire country. They discuss important questions and have to appear before them prominent men who are up in every way upon the present condition of the commercial and financial world. The New York Bankers' Association met at Saratoga Springs on July 15th and 16th. Captain Lowry delivered an address before the body on the second day of the convention on the subject of the growth of the bank association and also national association to the bankers and the far-reaching influence they have on the country at large.

Captain Lowry explained that if one state had a law that was beneficial to its local interests and another state did not, the two states then could interchange ideas and both be mutually benefited.

Captain Lowry states that there is plenty of money in New York today that is anxious to invest in the south. They

emphasizes the record medal of 1893—a fac-

THE GALLANT 7TH'S SURVIVORS

Heroes of One of Georgia's Bravest Regiments in Reunion.

MET AT GRANT PARK YESTERDAY

Historic Organization of Noble Fighters Meet and Exchange Stories of the War.

To the rattle of drums and the piping of the fifes the veterans of the bloody Seven gathered in Grant park yesterday morning to live again, if only for one day, among the stirring scenes of the past. Of the \$400 that marched in the gallant regiment to fight from front and rear in the Virginia, Maryland and Pennsylvania with their blood, only 100 remain to remember the dead and seek fraternal reunion in the commemoration of a common cause. Some other 700 are gone the way of all the earth.

The heroes of the sixties, some distorted

by the enemy and others suffering from the

effects of invisible wounds, gathered in the pavilion and heard themselves justly praised for their acts of bravery and deeds of courage.

Promised at 10 o'clock the old vets were called out by the president, R. F. Davis, of Company E. President was seated by W. J. Hudson, captain Company I, followed by an address of welcome from Captain C. E. Maddox, of Company K. The response was made by Judge Clay Jones of Company L.

He spoke of the cause for which the heroes fought, and emphatically declared that they were traitors, trying to disrupt the government, but were fighting for what they believed was right, and for the cause of the south.

He spoke of the cause for which the heroes fought, and emphatically declared that they were traitors, trying to disrupt the government, but were fighting for what they believed was right, and for the cause of the south.

IN THE LYNCHING.

MINOR DETAILS OF A DAY'S NEWS.

Brief Pictures from Many Local News Sources—Police, Courts, Undertakers, Capitol, Politics in Small Outline.

Death of Lillian Woodsidge.
At 5 o'clock this morning Lillian Robert Woodsidge, daughter of Mr. and Mrs. John J. Woodsidge, died at the residence of her parents, 182 Gordon street, in West End. She had been ill some time and was supposed to be suffering from appendicitis. Funeral arrangements will be announced later.

The lynching is the direct method of practice in the courts of the south. It is not wholly unexpected that he would have been murdered his sweet over a year ago and so long in his case can be seen to that it would be extended to labor the re-

lent until the day of his trial, just so long held court.

The lynching of Dr. Ry-

der's case has been

the subject of much

talk on trial impartially,

the thoroughly weighed and

freedom given.

Then there would

nothing either outraged

or satisfied. According

to which courts and law-

Dr. Ryder's case has been

brought to another and

back on this and that

bold, smart lawyers until

to look as if the distin-

guished would spend the remain-

a well fed, though jaded,

at large. . . . The

Ryder demonstrates an-

nection with lynching.

He preaches that no one

in the south but negroes

More negroes have been

murdered, but it is simply

degrees have committed

that awaken in the

spirit of violence men merit lynching.

It is the cause and not

the skin.

The lynching of Dr. Ry-

der's lesson to Georgia in

the execution of the law against

how an outraged com-

munity in its own hands

justice is being trifled with.

They do not

the reason for the delay

Dr. Ryder was guilty, and

settled it. He might

any penalty, they thought,

it is a terrible lesson to

the leading counsel

to be present. Of the

cases only three answered

Was the law a farce?

Was this red-handed murderer set free? An outraged people trifled with. They do not

the reason for the delay

Dr. Ryder was guilty, and

settled it. He might

any penalty, they thought,

it is a terrible lesson to

the leading counsel

to be present.

Was kept too long.

Jim Thomas, a negro, was brought up for idling and loitering. He said that he had been arrested last Wednesday. The officers explained that he had been caught trying to sell a bottle of beer to a negro who had arrested him and given the case to the detectives, who could find no evidence against him. They had then made a case for idling and loitering. "Well, I don't like that," said Judge Calhoun. "Here you have kept this negro in the prison for a week without bringing him to me, and you can't do that. I will dismiss this case."

Not in Court.

The name of T. E. Matthews was called, there against him he did not appear. The officers will arrest him on sight.

Had No License.

Charles Thompson, the well-known business man, was found guilty of being a busi-ness without a license. A fine of \$50 was imposed, but it will be remitted if the license is taken out within a week. Yesterday afternoon Mr. Thompson secured coun-sel and appealed the case.

Threw Books.

A little negro boy was brought before the judge with the charge of throwing rocks entered against him. Judge Andy gave him a lecture and a fine of \$30 and costs.

"No Curfew Law."

Will Jackson, a black teacher, two no-
men, were up for failing and loitering. They were found last night and answered in an impudent manner when the police asked them what they were doing.

"Well, it was not right to arrest these men," said Judge Calhoun. "They are both negroes, but they have a right to the streets. You can't go around arresting everybody who is on the streets at night. There is no curfew law here yet. You boys can both go."

Two Sisters Fight.

Sallie and Rebecca Johnson are sisters, but they do not love for one another, which sisters ought to have. Two nights ago Rebecca came home drunk and raised a tempest with Sallie because the latter did not have something to eat that suited her. Sallie came out of the night the second best, so she had her sister arrested. Judge Calhoun gave Rebecca \$5.75 and Sallie \$2.75 yesterday morning.

Had a Gay Time.

Colonel Tom Felder, of this city, who was engaged in the defense of Dr. Kilpatrick, told the court today that he would not prosecute the case of Frank Morris who is now under arrest for this same crime. The solicitor general will conduct the prosecution, and the preliminary hearing comes next Tuesday in Waycross.

Will Attend the Fair.

Colonel Tom Felder, of this city, who was engaged in the defense of Dr. Kilpatrick, told the court today that he would not prosecute the case of Frank Morris who is now under arrest for this same crime. The solicitor general will conduct the prosecution, and the preliminary hearing comes next Tuesday in Waycross.

A Costly Slumber.

Henry Calloway is a negro who never gave up to the title of "sport." He was found dead yesterday morning in a vacant house sleeping "dead to the right of the door," and will return three days later. Nearly all the members will attend.

Leaguers Not Yet Back.

The Atlanta Epworth Leaguers, who went to the national convention at Toronto, have not yet returned, and the convention adjourned yesterday night, as the delegates' tickets are good for some time yet, they have taken advantage of the extension and are sightseeing through the east. Many are in New York and Washington, and some yet remain at Toronto. The whole delegation will probably not be to interfere in the case. It is said a lengthy petition signed by many prominent citizens will be presented to the governor when the appeal for executive clemency is made.

Handley Wins the Prize.

The second quarterly prize drill of com-
pany K was held Tuesday night at the con-
vention hall.

Stenographers To Be Paid.

An order was signed yesterday by Judge Lumpkin authorizing payment of \$40.20 to Stenographers Parry & McCord, who took the testimony in the case of A. L. Kone, administrator of the estate of A. C. Ladd, against a number of defendants.

Several Years' Meeting Filed.

A number of interventions were filed yesterday in the case of Fred Wagner against Atlanta Bicycle Works. The case will come on for final hearing in the superior court before Judge Lumpkin within the next few days.

Injunction Was Granted.

An injunction was granted yesterday in the petition of the Georgia Finance Company against Martin Burchell. The company claimed to hold a mortgage on the property and asks that the defendant be enjoined from changing the status of the affair until the claim could be settled.

Chicago Weather.

It has been so hot in Chicago
that the temperature has dropped
and the weather is spelling out well in

She Wants Her Insurance.
Mrs. Jane Murphy, of LaGrange, yes-
terday filed her intervention in the case
against the Mechanics' Mutual Fire Insurance
Company. She claims she took out
\$100 insurance in the company on her gin-
ger. She had been ill some time and was sus-
pected to be suffering from appendicitis.
The claim is that the gin was burned and the
claim rejected. She desires the judgment of
the court against the company in the amount
of her policy. The intervention was
allowed and she was made a party.

Will Accept the Quit Claim Deed.

Author was presented with the receivers of the Southern Building and Loan Association to accept from Mrs. Mary E. Peeler a quit claim deed to her property on Broad and Grace streets. The petition of the receivers showed that Mrs. Peeler borrowed \$2500 from the association for a mortgag on the property. She had moved to Baltimore and is in arrears in her payments. The receivers showed that it would be expensive to foreclose the mortgage and showed that she would give a quit claim to the property if she were paid the sum of \$40. The authority was

Woman and Society

Charity at the Hospital.

The twelve little patients in the children's ward of the Grady hospital wore the happiest smiles on their pale faces yesterday, for in came a fly happened to light upon their coverlid or little white gowns, they had with which to fight them away the curse of empire fans. These gifts were brought them with fruit and wholesome bon-bons by the lovely little lady who sees them oftener than any one else, and whose cheering smiles bring sunshine to the little sufferers and who is very their ministering angel.

During a visit to the pretty flowers on her hat, admired the jeweled rings on the fingers that caressed theirs, but each and every one of them cast envious glances at the empire fan that hung from a golden chain about her neck.

Their mute appeals were not in vain, and as their good fairy visited each white cot yesterday she placed in the hand of its occupant a tiny fan, a fac-simile of the one she wore on the chain about her neck. Then besides these was given with the fan a rose apple and a bon-bon. The smiles of satisfaction lighting up the pale faces would have touched the heart of marble, and there was enough sunshine within the ward to bar out the dreariness of the day without. One little girl who was impatiently whimpering because her rice and beef were not being broiled to her at the moment, she knew it must wait for the dinner room readily forgot her hunger and smiled seraphically as she caught sight of the spangles on her fan. Another used hers with the grace and ease of a grand dame, though three summers had scarcely passed over her little tow head.

But the picture that probably appeals more directly to the human heart is the gradual recovery of the little McClain child who was almost fatally wounded by the pistol shots of a drunken father. He is now able to sit up in his cot, and suffers comparatively little from his head, though he is still speechless on one side. His parents and friends understand, however, everything that is said to him, and acts obediently upon it. It is probable that his speech may yet return to him. He is pronounced one of the most amiable and docile of the little patients and clings affectionately to the hand of the lady who has given him the fan and apple. He enjoyed perfectly the games that brought him here, and managed very well with his one little hand, the other one lying so absolutely powerless beside him.

Five of the present patients are convalescing, and during their dimmed in the ward dining room. Their meals consist of boiled rice, potatoes, bread, butter and milk, but they all stopped long enough to admire the fans brought them and child-like hurried through the beef and potatoes, when they saw there were apples on hand.

Two of the most fragile and delicate of the little patients are the children of a very sick mother, and almost very ill in the woman's ward, and her apprehension of her position and her little ones suffering so near her is a story pliful to hear. She is an industrious woman, who made an excellent living at sewing, but has been almost disabled a year.

This is but one of many instances that comes to the attention of those who visit the hospital and take that interest in the institution which it needs to further its success. The lack of universal interest in the hospital, both on the part of those whose duty it is to manage it, as well as the citizens of Atlanta at large, is one of the greatest sins which does not speak well for that spirit of loyalty and charity that should belong to the city in regard to its charitable institutions.

There are those philanthropic people who may decline to give to the hospital or take practical interest in it, but there are great numbers who do, and those that do know that they do it mismanaged. How do they know it is mismanaged? Do they ever visited the hospital? Do they know what its needs are, and can they tell just where the faults can be remedied? If so, then done your part. As far as one of the means of exerting influence is in the hospital, and yet with the exception of a very few people, there is not that interest manifested in the Grady hospital that there should be.

The children's ward, in every detail, shows plainly the character and practical interest taken in it by the very few good women who visit it, though the Ladies' Auxiliary of the Grady hospital has rather a large membership. Their indifference certainly cannot be due to a lack of inspiration from reading it, for there is no woman who is more modest, or of greater charity, and personal interests herself in it, than does Mrs. Lowry in the children's ward. She visits it regularly and herself sees to every question that may arise as to its welfare and management. If there were more practical charitable work among the localised charity circles in Atlanta, the male and female wards might show the same sunshine and evidence of "ministering angels" as does the children's ward. As it is, among the few faithful workers, the names of hospitals may be found those who are visiting the city, young women, and who desire that greatest of all blessings that is promised here and hereafter, to those who do real charity to God's suffering ones.

To Meet Today.

There will be an important meeting of the Woman's Christian Temperance Union today at 4 o'clock in the Woman's Club rooms at the Grand. This organization of international importance has recently been making exhaustive efforts to effect reforms in the various states, and in its broad scope, there being four-fold different objects named in its organization. The local chapter here, as elsewhere, has recently renewed its interest and work, and the membership is rapidly increasing. Their appreciation of the influence that may be had by the literary matters cultivated there has been expressed by their commendation and review of books published some twenty years ago by Mrs. Henry Wood. It is entitled "Danebury House," and is one of her best known works. The introductory preface is signed by Miss Frances Willard and Lady Isabel Somerville. It contains a typical temperance story and concludes thus: "While our own lives are too thoroughly pre-occupied with temperance works for us to write stories, even had we the gift, or to read them to any extent after they are written, we are encouraged to hope that the minds of young people will dwell on the attractive pages of this great story by a great author, and through its vivid scenes be led to shun the cup that lives but to destroy."

Tribute To Miss Dorch.
During her recent visit to Nashville, when she accompanied the Weekly Edictor's Association, Miss Ellen Dorch met with distinguished attention, proving that the fame of this plucky little woman, the author of Dorchill, has far outrun the boundaries of her own state. It will be remembered that the time the bill was pending one of the most eloquent letters written and published in the state was by Governor "Bob" Taylor, of Tennessee.

The Nashville Sun says of Miss Dorch: "She is assistant librarian of the state of Georgia, and since the passage of the

WATSON DEMANDS BUTLER'S HEAD

He Says Marion Must Resign To Revive Populism.

"PARTY IS DISHONESTLY LED"

He Says Watson—He Says That It Is Also Disorganized.

SAYS BUTLERISM HAS BROUGHT RUIN

He Contends That Butler's Resignation Is Only Thing That Could Inject New Life Into Party.

Tom Watson has written an editorial, which appears in today's people's party paper, demanding that Marion Butler resign, chairman of the national populist executive committee.

Watson says that Butler's resignation is all that can save the party, and he publishes the following paragraph in capital letters to give emphasis to his assertion: "The party can put new life into the party as long as the fear of division shadows upon our future."

Watson admits that his party is torn to pieces and says that the dissolution was caused by Butler and that Butler's resignation is the only remedy. He claims that the party is divided into two old parties, and that the party is split up into a party. He contends that there was never a better time than now for the populist party to flourish, but he says that confidence and leaders are needed.

The workmen are ready, but not a few now will run away. Watson says that the only way to kill fusion is to kill Butler, politically.

Watson contends that while the populist party is an organization, it does not represent the spirit of populism still alive. He says that the populism is a national protest against legislative wrong and that while the wrong remains the protest will be heard.

The workmen are ready, but not a few now will run away. Watson says that the only way to kill fusion is to kill Butler, politically.

PERRY MUST DIE ON THE GALLOWS

So Declared the Supreme Court
Yesterday Morning

LOWER DECISION AFFIRMED

Justices Atkinson and Cobb Render Dis
senting Opinions.

MAY TAKE CASE U. S. SUPREME COURT

Governor Atkinson May Also Be Ap
pealed to for Executive Clemency.
Decision Says Murder Was
Willful and Premed
itated.

The supreme court says H. S. Perry, the
murderer of Bob Lanier, must pay the
penalty of his crime on the gallows.

In a decision rendered yesterday morning,
the verdict of the lower court was affirmed,
and unless further steps are taken by de
fendant's council, he will swing from the
same red gallows in the Decatur jail yard
that sent "Terrell" Johnson to his doom some
weeks ago.

The decision was prepared by Justice
Lumpkin and assented to by Justices Atkinson
and Cobb dissenting. There are two more
chances for Perry's make-out, the case
presenting to the U. S. States, and the
other executive clemency. The defendant's
attorneys will make further efforts in his
behalf but have not yet decided just
which course they will pursue.

When the news was broken to Perry in
his cell in Decatur jail yesterday morning,
he was calm and collected. He is a man of
remarkable nerve, and does not
seem to fear the dark fate that apparently
stares him in the face. He had ex
pected the supreme court to grant him an
other trial, but finds comfort in the fact
there are two chances yet, both of which,
he says, his attorneys will embrace in his
behalf.

Some Points from the Decision.

The affirming judges state in their de
cision "the evidence in the case made a plain
and unmistakable case of willful and deliber
ately premeditated murder," that "the
statement of the accused himself was that
it is certain the jury did not believe that
portion of the same alleging the reason for
which the homicide was committed.

The decision furthermore states that one
of the principal points of whose wife, an offense,
no matter how serious, has been committed,
cannot in law be justified in taking
vengeance in his own hands, and deliberately
sacking out and following up the wrong
and slaying him; that the question of
whether or not capital canar arise in this case,
and that the law of voluntary manslaughter

does not apply.

Moreover, the justices state in reference
to the dying declaration of Lanier that a
writing signed by a person since deceased,
who is not the wife, and conscious of his
crime, is when committed by a person
of sound mind, and guilty, and when
unquestionably established, and the guilty
as a whole conclusively shows that being
of sound mind, the impeaching evidence did
not rise to the level of capital.

Whether this court should deal with
the errors pointed out in the two preced
ing trials, and the bearing upon the correctness of the
jury's conclusion of fact that the accused
was guilty, will also be considered by the
court. Whether or not these errors
should also in this connection consider
the question whether or not the jury may
be allowed to relieve the accused of the
death penalty by recommending his im
prisonment for life, there should be no
trial in this case.

The trial, however, the justices state in
reference to the dying declaration of Lanier that a
writing signed by a person since deceased,
who is not the wife, and conscious of his
crime, is when committed by a person
of sound mind, and guilty, and when
unquestionably established, and the guilty
as a whole conclusively shows that being
of sound mind, the impeaching evidence did
not rise to the level of capital.

Whether this court should deal with
the errors pointed out in the two preced
ing trials, and the bearing upon the correctness of the
jury's conclusion of fact that the accused
was guilty, will also be considered by the
court. Whether or not these errors
should also in this connection consider
the question whether or not the jury may
be allowed to relieve the accused of the
death penalty by recommending his im
prisonment for life, there should be no
trial in this case.

Moreover, the justices state in reference
to the dying declaration of Lanier that a
writing signed by a person since deceased,
who is not the wife, and conscious of his
crime, is when committed by a person
of sound mind, and guilty, and when
unquestionably established, and the guilty
as a whole conclusively shows that being
of sound mind, the impeaching evidence did
not rise to the level of capital.

The dissenting justices state the reasons
above set forth is not valid ground for
sustaining a verdict of guilty when the
record clearly discloses that errors were
committed which were calculated to preju
dice the accused when the jury should have
under consideration the question of punishment.

The prosecution was represented by At
torney General Terrell, W. T. Kinsey,
Glen and Rountree and John R. Cooper. The
defense by T. M. Peeples, R. B. Russell,
Brewell & Smith, Hoke Smith and H. C.
Peeples, contra.

Something of the Crime.

The crime was committed on the 8th of
last March, when Lanier was shot in the
court-house at Decatur in cold blood.
Perry was a commission merchant in At
lanta, and Lanier was a clerk in a De
catur drug goods store, and boarded with
Perry at his home.

The relations of the two men had al
ways been pleasant until a few days prior
to the murder, when Perry claimed to
hear that Lanier had attempted to leave
town on the part of his wife, and Monday
morning the latter took refuge in a Gar
den train for Ingleside, Perry following him.
As Lanier stepped from the train Perry
overtook him from behind and sent
one bullet through his lung. When
Perry had fallen Perry shot him again.
Perry was placed under arrest and locked
in the Dekalb county jail. Lanier
was given medical attention, but he died
in a few days.

Perry was tried the latter part of April
and sentenced to be hung. The plan
of the defense was based on the alleged ins
anity of Lanier's wife; that of the pros
ecution on the divulging to Mrs. Perry
of Lanier's intimacy with a woman of ill
repute.

The Decision in Full.

The following are the decisions of the
justice in the state. Before Judge Candler:
Lumpkin, Superior Court. Although an order for
the holding of a special term of a superior
court may rectify "that there is important

light of the undisputed facts of this case,
and of the statement of the accused, ought
to, or in any degree of probability, would
have induced the jury to give a general
verdict of guilty in which the trial re
sulted.

It is an introduction to a trial for murder
to the effect that it is immaterial from
what source mailed springs, does not inter
feres with or abridge "the prerogative
of life," nor is it, in such a trial, erroneous
to charge that the malice "need not ex
ceed the length of time" previous to
the homicide.

It is manifestly true that the pre
sumption of malice, arising from the lack
of proof of a homicide may be rebutted
by any evidence introduced at the trial
which tends to show that the homicide
was committed on Monday could not be just
ified by proof of an offense committed upon
the 7th of April, or on the 8th of April.
Friday, was certainly correct; and the fact
that the latter, in his statement, claimed
that the crime which he alleged had been com
mitted upon his wife by the deceased on
the 7th of April, not on the 8th, was not
conclusive of itself, for there may not have been
adequately adapted to the facts in issue. It was
an abstract proposition, sound law.

JOSEPH E. BIVINS.

Decide to take Hood's Sarparilla now
and do not be induced to take any other.
There is no other kind "just as good."
Hood's Sarparilla, the only true blood
purifier.

Off for the Markets.

ANDERSON REPRESENTS CREDITORS

Mines Will Be Operated Under New
Company and All Creditors and
Bondholders Are Acting To
gether for Mutual Protection.

The assets of the Georgia Mining, Man
ufacturing and Investment Company were
sold yesterday at a price in front of the door
of the company's office, 10 Peachtree.

Judge Julius L. Brown in pursuance to an order of
the superior court, which grew out of
the lengthy litigation inaugurated not
two years ago.

The title to the property was \$24,805
and the sale will be reported to Judge

Lumpkin this morning by the receiver.

In the event the sale is confirmed, and there
seems to be no doubt upon this question, the
court will authorize the receiver to
properly make the transfer and give title to
the stockholders.

The stock and bonds of the underlying
companies were transferred to a trustee
in New York to secure an issue of \$500,000
of bonds.

What the Company Owned.

The actual properties represented by
the sub-subsidiary corporations consist of
50,000 acres of virgin land, 100 miles of
iron furnaces, 300 coke ovens, 100
miles of railway, fifteen miles of under
ground railways, coal and iron mines well
developed, more than one hundred head of
stock, about 20 buildings of various kinds
and several locomotives, besides the tools
and machinery for the operation of the
mines.

The land is the most valuable in the state
and is situated in several counties
near Atlanta. The iron furnaces, coke ovens
and railway lines are owned by the
Georgia Mining, Manufacturing and
Investment Company.

BEAR'S SOLD HEAVILY

Influenced by the Possibility of Gold Experts Soon.

CLOSED STRONG AND HIGHER

Continued Rise in Wheat and Good Crop Outlook Principal Influences—Sugar Still Active.

New York, July 21.—The stock market today generally was steady, though not strong, and at a level for not only the more active shares, but also for shares usually quiet and unobtrusive. One of the most potent influences was a 2c extreme rise in wheat, and the export orders of over a million bushels of wheat, while yesterday the enormous amount of 1,500,000 bushels were called for export. This is the market's business in a number of years. Other influences were the treasury's continued gain in gold, favorable crop outlook and predictions of the tariff's early becoming a law. Predictions were not wanting that this country would produce a bumper crop next year, although there was a possibility of moderate gold exports soon. Speculative and commission houses orders were sustaining influences in the local market, while foreign bankers maintained that recent London sales were rather the liquidation of old positions. New York's account. The top prices for the present movement were recorded by Chicago Gas, Rock Island, Brooklyn Rapid Transits, Lead, Chicago and Great Western and Missouri, Kansas and Texas preferred as well as some less notable stocks. Industrial stocks are quoted today at an advance of over 4 per cent, while twelve railroad stocks are up over 2½ per cent. This rise, of course, is a constant temptation to those who, for several years, have found short sales at every sharp advance ultimately successful. The market area that is improving business situation and expected increases in railway earnings may carry the market above the figures prevailing before the 1893 panic. Sugar rose to 145c, receded to 142c and closed with a net loss of 3c per cent. It was claimed in some quarters that the market must realize all the recent advance of its holdings, but there is no way of verifying such rumors. Lead was buoyant on buying attributed to tariff changes. Chicago Gas advanced on confident buying in view of the dividend. The market was stimulated by Gas stocks 4 per cent, part of which it subsequently recovered. The Berlin market was quiet and that in Paris firm.

tive conflict, in which, according to rumor, some of the so-called insiders are on the bear side.

Lead was again a strong factor of buying. In the late afternoon spirits advanced in the American Spirits company.

Tennessee Coal and Iron was higher on hopes of an early settlement of soft coal strike.

In the railway list Rock Island led the grangers in point of activity, rising over 1 per cent on confident predictions that the dividend rate would be raised soon.

The coal stocks were firm.

The market closed strong and tending upward.

GREAT DANGER TO CITY WATER MAINS

Chattahoochee and Hemphill Avenues
Said to Be in Bad Condition.

WASHOUT MAY BREAK BIG MAIN

The City's Water Supply Would Be Cut
Off and Much Damage Done.

MR. HOWELL ERWIN URGES PROMPT ACTION

Says the Avenues Should Be Improved
Without Delay—A Break of Mains
May Occur at Any Time.

The city council will be asked to consider

the question of improving Chattahoochee
and Hemphill avenues from North Avenue
to the river, along which avenues the big
water mains are laid.

The condition of the condition of the
avenues is such that there is great danger
to the mains under the streets, the heavy
rains frequently causing big washouts and
leaving deep holes in the avenues. It is feared that the foundations
of the big mains may be destroyed, causing a
washout in the mains which would not only
cut off the city's water supply, but would
result in great damage to property west of
the city.

This question is one which has given the
water board considerable worry. Special
committees have considered it and con-
cluded that the best way to the remedy
is to wash out the main and repair it.

Chairman Erwin, of the committee in
charge of the matter, reported that he
had been informed by the county engineer
that the work would be done as soon as
possible.

Professor McCauley, state geologist,
will have charge of the bulletin.

Mr. Howell Erwin urges prompt action
in the solution of convict lease
problem—What the Bulletin
Will Contain.

Here is good news for Georgia wheelmen.

Professor Yeates, the state geologist, has
inaugurated a movement for the improve-
ment of every road in the state, and has
already taken the first steps toward the
movement.

Professor Yeates is a strong believer in
the value of roads, and he will exert every effort
to make every thoroughfare in Georgia
comfortable passable.

Considering the unsettled condition of the
convict lease system, it is particularly
important at this time, and may aid
in the solution of the problem of disposing
of the state criminals. Professor Yeates
has the hearty endorsement of Governor
Atkinson in his plan, and their efforts may
result in wonderful good to the rural districts.

Professor Yeates will soon issue a good
roads bulletin which will largely aid in
the progress of the work. This bulletin
will be compiled with great care, and will
be largely conducive to the future prosperity
of the state.

Professor McCauley, state geologist,
will have charge of the bulletin, and it
has already begun securing data with which
to begin. He will start soon on an inspection
of the whole state, and the report of his
observations will be published in this
bulletin.

What the Bulletin Will Contain.

The pamphlet will contain information
exceedingly valuable toward the construction
of good roads. It will be clearly
illustrated, and will contain most up-to-date
methods for road construction.

The pamphlet will contain practical les-
sons on the best methods of grading, and
point out the best materials, and the most
approved methods for grading. It will
give the wheelman a plan that every man can
understand, and implement his efforts
accordingly. Copies will be mailed to every
farmer almost in the state.

Mr. Howell Erwin urges prompt action.
